Soup of Success is an intensive 20-week program that addresses the whole woman mentally, physically, and spiritually. We help participants find their voices, discover their direction, establish their goals, and overcome obstacles to achieve those goals. The program takes a holistic approach, encompassing five main facets:

- Group & Individual Support
- Education Modules
- Career Counseling
- Hands-on Business Skills
- Graduate Follow Up

Our social enterprise allows women to learn various aspects of running a small business. All proceeds from product sales cover training stipends for participants and other program costs.
